1. Attendance. A quorum was not present for the meeting. The members from CIA, Army (plus Army Map Service) and Air Force were present, together with an alternate from State. The Acting Chairman expressed strong disappointment at the sparse attendance, particularly in view of the fact that the Annual Report to USIB was up for discussion. The Acting Chairman said that he takes the position that the meetings are scheduled well in advance and therefore regular members should plan to be in attendance in the absence of an overriding emergency. The Acting Chairman also pointed out the courtesy of the absent members to those who were present, as the absence of a quorum made it impossible to have a full discussion of the annual report at this meeting.

2. Letter from the National Agricultural Library. Copies being distributed with these Minutes.
